From: John Broadwater

To: David G. Concannon

David,

NOAA is not even willing to provide links to their published documents on the Titanic. [REDACTED]

Hi John, I've been informed that any discussions with you (or others working with RMST) pertaining to Titanic need to involve our legal counsel. Unless that has changed, I am not able to help you.

Hi Frank,

I hope you're in good health and weathering the current crisis.

I've got a question: Did NOAA issue reports on the 2010 and 2004 Titanic expeditions and, if so, where can I download them?

Thanks!

John
